DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under PCT Rule 13.1:
 - I. Claims 1-11, drawn to a method of forming a winding core for an electric motor;
 - II. Claims 12-20, drawn to an alternative method of forming a winding core for an electric motor.
2. This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.
 - Invention I, claim 1, drawn to a method of forming a winding core for an electric motor, with a special technical feature of a keyway;
 - Invention II, claim 12, drawn to an alternative method of forming a winding core for an electric motor, with a special technical feature of a jig.
 - Group I has such special technical feature of a keyway, which is lacking in Group II;
 - Group II has such special technical feature of a jig, which is lacking in Group I.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1 and 13.2.

Because these inventions are distinct for the reasons given above, restriction for examination purposes as indicated is proper.

3. A telephone call was made to the office of Joe E. Bair (616-742-3500) on 11/04/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
